

Dear Chairman Powell,

As a citizen well informed about the political and electoral issues that affect America, I am greatly disappointed by the degradation of many of our finest institutions.

That Mr. powell was ever given responsibility to protect the public airwaves is as offensively dishonest, and transparent, as giving Interior over to James Watt. You have demonstrated the same level of respect for the public interest as Steven Griles has towards the environment, and Elaine Chao has for labor.

Sincerely,

Jake Culver
